TAR CORMAL!

NATURE'S GREAT REMEDY

FOR THE

THROAT AND LUNGS!

It is gratifying to us to inform the public that Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung Disease, has gained an enviable reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not thro' the press alone, but by persons throughout the States actually benefitted and cured at his office. While he publishes less, so say our reporters, he is unable to supply the demand. It gains and holds its reputation—

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, which causes irritation (which produces cough) of the mucous membrane and bronchial tubes, sasists the lungs to act and throw off the unhealthy secretions, and purifies the blood.

Third. It is free from squills, lobelia, lpecac and opium, of which most throat and lung remedies are composed, which allay cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in the market.

MORN AND NOT COTTON IS

IMPORTANT TO FARMERS-THE GREATEST DISCOVERY IN THE WORLD.

Extra Early 32-Rowed Corn.

It is a genuine 32-rowed sweet corn, grow-ing from 10 to 13 feet in height. Last year planted the first of May; it was sold in the market, July 23d, (84 days). A later planting was ready in 76 days. ITS CLAIMS.

ITS CLAIMS.

1. It will produce more corn to the acre with the same cultivation and in any variety of soil. 2. It has a greater depth of kernel than any horse-tooth variety. 3. It has a smaller cob than any 32-rowed variety. 4. It weighes to pounds to the bushel, sealed measure. 5. It fills better at both ends than any other corn, 6. It is a solid white transparent corn, with white cob. 7. It grows more vigorous and ripens its whole crop carlier beam any of the other large field varieties in America. 8. It makes better ment, being sweeter and richer. 9. It bears more foliage which makes more feed. 10. It can be planted on land from which wheat has been harvested, or from which pontoes have been dug, fully ripening before frost. 11. The spikes shoot out within four feet of the ground, consequently the crop is not liable to be prostrated by high winds. It is likewise caster to gather. 12. It bears more full grown ears of corn on such stalk than any large field variety. 13. The tap roots penetraling the subsoil to a very great depth it will star a severe drouth better than any other variety of corn. 14. It can be successfully grown in any State.

We give the most satisfactory references that the corn is in over respect, what we re-

persons throughout the country who have in-troduced this variety of corn. Having a quan-tity, we are now able to fill all orders for those desirous of testing it. Last season we could have sold 2000 bushels more, but could not fill
